Finally, race-, class-, and gender- lines may compete with each other in shaping some health behaviors and outcomes. The findings have major clinical, public health, and policy implications. Results are expected to extend the field of health disparities by discovering new mechanisms behind health disparities.

Frontiers | Sociology, Social Class, Health Inequalities, and the...

Gender, Ethnicity and Class (and its Proxies)There is no doubting the causal impact of gender and race or ethnicity on health and health care. They are clearly implicated in the production and reproduction of health inequalities, and they no less clearly antedate the class-based stratification system of capitalism through all its phases. But, I contend, it is class that is of stand-out ...

Triple jeopardy? Mental health at the intersection of gender,...

6/1/2012 · Highlights Gender, race, and class interact to affect mental health in paradoxical ways that existing theories cannot explain. Cultural schemas about the relative importance of the self versus others, termed self-salience, help explain the anomalies. Self-salience schemas are shaped by gender, race, and class and predict a wide range of mental health problems. Preliminary analyses of data from ...
